

BREEZE-S

More than ever before

Offering an enhanced driving experience with special attention to driver comfort

MORE COMFORT, MORE SAFETY AND MORE CONTROL in one stylish vehicle **BREEZE-S**.

Afikim has taken its years of experience in developing advanced mobility scooters to a new level and has created the optimal scooter - **BREEZE-S**.

Featuring the most advanced safety system in the world, **BREEZE-S** offers exceptional comfort, easy control, and enhanced style. Afikim has taken every small detail into consideration to ensure driver safety and comfort, with LED lights, LCD control panel, state-of-the-art electronics allowing software control, advanced shock absorbers, reinforced chassis, and fully adjustable orthopedic seats.

The scooter is fitted with extra storage compartments for maximum convenience. Available in three or four wheel models and a single or a dual seat, **BREEZE-S** is the ultimate scooter for outdoor driving - delivering a superb driver experience.

Designed and manufactured by

And the winner is...

BREEZE-S: Winner of the "Red Dot" Design Award: Product design 2011 for its outstanding design.

The prestigious award is granted by an International jury for innovation, functionality and design and is a seal of quality for the highest standard product.

The "Red Dot" is a label of excellence for both the product and the manufacturer. Every year the jury is assembled from the most famous designers and leading design experts from across the world.

This year the jury consisted of 36 experts, who examined as many as 4,433 products from more than 60 nations!

The **BREEZE-S** excels in its inventiveness, functionality and quality in addition to its unique design.
